WHO WE ARE

Adult & Teen Challenge of Texas provides Christ-centered, residential addiction recovery programs designed to transform the lives of men, women, families, and teens.

WHAT SETS US APART

We offer a chance to start over, become a new person, live a godly life, and experience freedom through a restored purpose and an eternal hope.

- **Transformation—Not Treatment**
  Lasting freedom comes through a restored relationship with God—bringing healing, transformation, and lifelong sobriety. Our program works to uncover the root causes that can lead to addiction and replace them with the life-transforming truths of God's word.
- **Building a New Life in Christ**
  Our biblical recovery curriculum offers powerful and proven materials that deeply transform lives. Caring staff offer mentorship and life skills training in a safe and encouraging community. We help prepare each person for a brighter future by providing employment support in a re-entry phase, ensuring each is equipped with everything needed to thrive.
- **Healing Through Residential Care**
  Recovery takes time. Our residential programs range from 12 to 18 months and provide a safe and structured environment where participants can break free from addiction and destructive patterns. It's within our supportive Christian community on our safe, clean campuses that individuals find healing and restoration.

A HOLISTIC APPROACH

Healing happens when all aspects of a person's life are restored. At the heart of our program is a holistic approach. By applying biblical principles, students become mentally sound, emotionally balanced, physically well, and spiritually alive.

AFTERCARE OPPORTUNITIES

Ongoing Support for A Lifetime of Freedom

The **Internship Program** offers hands-on training for individuals who feel called to give back to others by pursuing ministry with Adult & Teen Challenge of Texas.

Through our **Re-entry Program**, graduates have the opportunity to remain on campus, where they can continue their recovery journey surrounded by a safe and supportive community. Graduates receive ongoing guidance, encouragement, and support.

Lifeline | A Non-Residential Support Group offers caring relationships and curriculum-driven classes for those who have completed a long-term recovery program, as well as individuals and families affected by addiction.
